

# Bennett 23

## Art and Performance

The Bennett 23' is a small offshore boat with big offshore performance. Commercial quality throughout, she is hand made using the finest marine grade aluminum. From her fully gusseted welded bulkheads to her heavy-duty welded aluminum hand rails, the Bennett 23' is more boat than any boat in her class...and a Bennett through and through.

### Stable Hull

Deep "V" bow transitions to 18' deadrise at transom for soft ride and stability.

### Solid Center Console

Heavy duty welded center console with full enclosure is large enough for 4 people with lockable storage compartment.

### Self-Bailing Decks

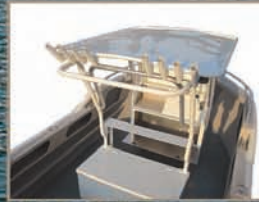

Roomy walk-around deck design with self-bailing non-skid decks with large self-sealing scuppers aft.

### Super-Strong Construction

Commercial quality construction of heavy-duty 5086 marine grade aluminum.

### Choice of Power

Available as inboard, inboard/outboard gas or diesel as well as outboard power.

Flush mounted rod holders in gunwales (3 on each side) and welded rocket launchers on welded hard-top will satisfy the most demanding fishermen.

### Specifications:

Length overall .....	23' 0"
Beam .....	8' 6"
Draft .....	15"
Fuel capacity .....	92 US gal
Propulsion .....	Inboard, I/O or Outboard
Maximum horsepower .....	350 h.p.
Standard horsepower .....	225 h.p.
Top speed (standard h.p.) .....	50 m.p.h.
Displacement .....	aprox. 4200 lbs
